## COLLECTION PHI, THE ART OF TEA, INFUSIONS AND COFFEE

The **PHI** collection, named for the letter of the Greek alphabet that represents the golden ratio – perfectly balanced proportions, a notion dear to Jean Puiforcat – is made up of **tasting tools for coffee, tea and infusions.**

With their pure and fluid lines, these pieces are made from **silver-plated brass, American walnut and glass.** All metal components are fashioned and assembled by hand in our workshops.

The timeless design of **PHI** was created by **Normal Studio**, where **Jean-François Dingjian and Eloi Chafaï** practice what they themselves call “**Elementary Design.**” Specifically, they seek out the perfect shape, the perfect proportions to accentuate use while underscoring the simplicity and elegance in the details.

## COLLECTION PHI, THE ART OF TEA, INFUSIONS AND COFFEE

THE COLLECTION INCLUDES VARIOUS ITEMS FOR SERVING AND SAVORING HOT DRINKS, SUCH AS COFFEE POTS, SUGAR AND TEA CONTAINERS, AND MATCHING SERVING TRAYS, AS WELL AS CUPS AND SPOONS OF DIFFERENT FORMATS

- The coffee and tea pots feature a strainer at the base of the spout to filter the beverage while pouring.
- The sugar bowl and tea boxes are equipped with a glass casing to preserve the full flavor of the ingredients contained within.
- The double-walled glass teacups ensure both comfort and durability. Their clean, pure shape is accented by silver-plated brass saucers polished to a mirror finish. The generous volume of the infusion cups is also ideal for other hot drinks such as cappuccino, mocha, latte or hot chocolate.
- A special tray was designed to accommodate three tea boxes – white, green and black tea – for a harmoniously ordered tasting experience.

## COLLECTION PHI, THE RANGE

### TASTING ACCESSORIES

#### ESPRESSO CUP

Ø 4.7" | H 3.7"  
GLASS AND SILVER PLATED BRASS

CAPACITY: 2.4 FL OZ.

REF 316178O 01

#### TEA CUP

Ø 5.3" | H 4.5"  
GLASS AND SILVER PLATED BRASS

CAPACITY : 5 FL OZ

REF 316176O 01

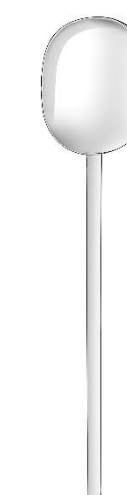

#### INFUSION CUP

Ø 5.8" | H 5.5"  
GLASS AND SILVER PLATED BRASS

CAPACITY : 7.8 FL OZ

REF 316177O 01

#### ESPRESSO SPOON

L. 3.75"  
SILVER PLATED BRASS

REF 316184O 01

#### TEA AND INFUSION SPOON

5.9"  
SILVER PLATED BRASS

REF 316185O 01

- *The cups and spoons may be cleaned in the dishwasher at low temperature, we recommend to dry them immediately after the washing cycle to avoid lime deposits.*

## COLLECTION GRANVILLE, A RANGE DEDICATED TO SPICES

After diving into the kitchen environment with the Silversmith Knives collection, Puiforcat continues its exploration of the world of preparation and tasting.

Through its collections, the House wishes to unite the kitchen counter and the dining room table.

**GRANVILLE**, the line of salt, pepper and spice mills (together with a spice box), launched in late 2019, now includes a **Nutmeg mill** and an **Oil dispenser**. These pieces, made of silver-plated brass and walnut wood, were **designed by Grégoire de Lafforest** and engineered to accompany the chef's hand, from preparation to tasting.

## COLLECTION GRANVILLE, OIL DISPENSER

- A wood and silver-plated brass casing protects the oil held in the inner flask. When placed on the table, the wooden cylinder holds the metal base.
- The flask and associated pipette are made of borosilicate glass for easy cleaning.
- The pipette is designed to let each guest season his or her dish with just the right amount of oil.

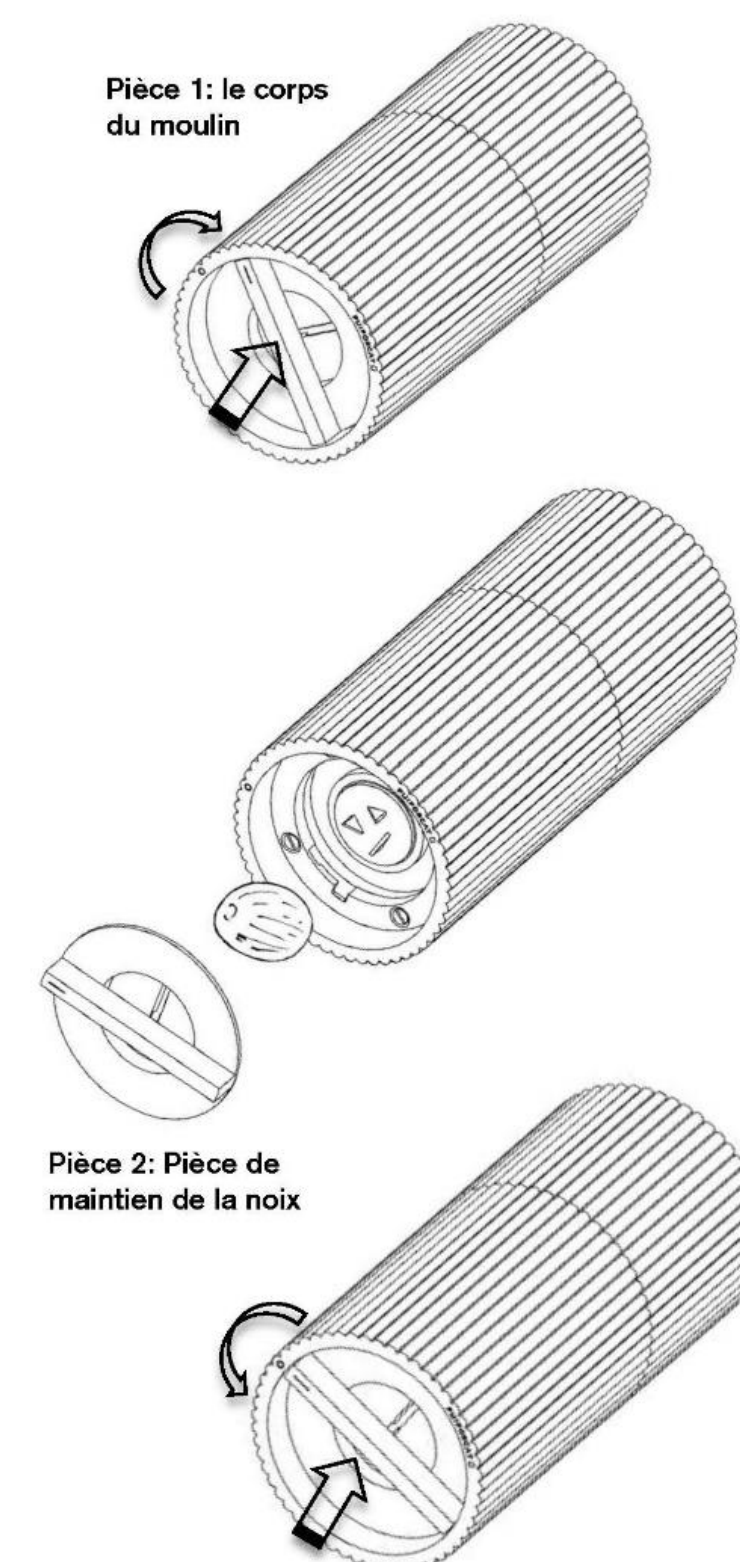

## COLLECTION GRANVILLE, NUTMEG MILL

- The nutmeg mill is equipped with a special Peugeot® mechanism making it possible to easily refill the receptacle from the bottom.
- Its simple, architectural lines echo the shape of the other Granville spice mills. Only the size of the fluting patterns differs, making this spice mill easily identifiable.

## COLLECTION GRANVILLE, THE RANGE

### 4 REFERENCES OF COUNTER MILLS:

#### DUO OF SALT/PEPPER MILL

Ø 2.64" | H 9" - H 6.74"  
WALNUT AND SILVER PLATED BRASS  
72 FLUTES

CAPACITY:  
PEPPER : 1.6 FL OZ  
SALT : 7 OZ

(New)

#### NUTMEG MILL

Ø 2.64" | H 5.6"  
SILVER PLATED BRASS  
54 FLUTES

CAPACITY :  
1 NUTMEG

REF 316139O 01

- We recommend the use of coarse-grained dry salt for a better efficiency of the salt mill mechanism.
- All mills are used in a clockwise direction except for the pepper mill.

SILVER PLATED BRASS  
GLASS INSERT  
36 FLUTES

CAPACITY :

SPICES : 5.8 FL OZ

REF 316141O 01

## COLLECTION HOULGATE, TABLE MILLS

The **HOULGATE** salt and pepper mills, a **new creation** by **Grégoire de Lafforest**, will add a functional yet distinctly aesthetic flair to any table.

- **Handmade by our craftsmen in sterling silver**, their pure, mirror-polished silhouettes grace the table with a touch of shimmering light.
- The Peugeot® mechanisms, ingenious in their shape and function, combine an innovative concept with a feat of technical engineering. The spice contained inside is ground by rotating the vertical disk, connected to the base by a shaft that fits perfectly into the mechanism.
- The receptacle is filled from the top by removing the disk and pouring the spice into the aperture. The concave, funnel-like design on the top of the base makes for easy refilling.
- The interior of the reservoir is coated to preserve the condiments.

The **all-silver version** is intended for **salt**, while the **gold-plated model** grinds peppercorns.

*We recommend the use of coarse **dry spices** for a better efficiency of the mechanism, and more specifically:*

- *Pepper mill: Black, White, Green, or Red pepper (ex: Sarawak, Penja, Malabar, Kampot) or mixtures (5 berries, 3 peppers) ...*
- *Salt Mill: Dry Salts (Pink Himalayan Salt, Blue Persian Salt, Diamond Cashmere Salt, Dried Guérande Salt).*
