PRODUCT
CATALOGUE

Do you think this is just glassware?

As LAV, we believe innovative and creative ideas make the world a better place. Correspondingly we work every day with an unyielding enthusiasm to add more value to our customers' lives with our products and digital services. We have succeeded in becoming a trusted brand, identified with change and dynamism; By virtue of our craftsmanship and know-how, sustainable and state-of-the-art production facilities, and the sincere communication we have established with our customers and business partners.

We are still in a pandemic that started at the beginning of the last year and deeply affected our lives and our understanding of work and business. As a result of the measures we took in our factories and offices, our production and logistics activities remained uninterrupted without compromising our employees' safety during this period. We ensured our communication's effective flow with our customers and business partners through an online home-office system. This whole endeavor showed us how we were on the right track with our digital investments, such as online shopping, which we have laid the foundations for in the previous years.

We've also re-established our management structure to spread the brand dynamism to every single unit and team member. We adopted the "Agile Management" approach that would further improve our ability to respond to ever-changing market demands. We implemented a fast production-oriented work model where the teams keep motivated, and workgroups that can make autonomous decisions are utilized. Simultaneously, we thinned down the review, control, and approval phases and created a work environment that both internal and external customers can remain involved in all stages. Our "Journey to Excellence" continues with digital solutions we had constructed for our innovative customers and a sustainable future since 2015 when we joined the EFQM organization. We expand and update the efficiency and profitability through three main strategies on an operational basis in this direction.

We are also preparing a report we will be happy to share in the upcoming days. The 2020 LAV Sustainability Report will include subjects that LAV has been working on and commit to doing so: Gender equality, energy efficiency, efficient resource utilization, social responsibility projects, and product safety. Here are some of the headlines we are proud to list: Women make up 45% of our white-collar workers, we have the most energy and water-efficient factories of the sector in Turkey, not only we produce glass, but we are also one of the world's three companies that manufacture its own production machinery.

Being aware that everything starts and ends with "communication," we can't reiterate enough that our customers can always have constant and open communication with us at will. We know LAV derives its strength from familiarizing with its customers as much as its production capacity. We determine customer needs clearly through market analysis, consumer research, home visits, and we follow and grasp global trends. We establish the right dialogue to be sensitive to our customers' needs, always act with "we-feeling," and hit the right chord of consumers and our business partners.

We hope you'll see more than just glassware in this catalog...

Tuğrul Baran
LAV General Manager

BEST FRIENDS

When choosing the cheese to accompany your white wine, remember the following basic rules: Serve hefty and aged wines with matured cheeses like Aged Provolone. Creamy, soft cheeses complement younger wines! Sweet and semi-sweet white wines should be balanced with salty and complex cheese like blue cheese.

ENJOY THE GRIP

Brandy is often drunk in round, even spherical, and narrowed rimmed goblets to keep the drink's complex flavor intact. To fully immerse your senses with the smell, brandy should be served at room temperature and even warmer, so the glass is designed to let your hand convect enough to warm your drink. This shape also fits comfortably and firmly in your hand. Misket cognac glass will appeal to both your nose and eye taste with its flawless form.

lal361
whiskey,
v: 345 cc, 11 3/4 oz
h: 87 mm, 3 3/7 in, Ø: 71 mm

The word whiskey has evolved from "uisge beatha," which is Gaelic (an ancient language is spoken in Scotland) and means "the water of life." The same structure in medieval Latin 'aqua vitae' is also used for hard drinks since the 1300s, and it's assumed that Gaelic borrowed these words from Latin. Whiskey production in Scotland began in the mid-15th century, and written records first mentioned it as whiskey at the end of the same century.

CHOOSE YOUR GLASS!

Presentation is crucial for a drink that has been matured with skill and patience for years. Even high brow and splashy spirits may end up disappointing with an inharmonious glass, while some humble drinks can offer pleasant surprises with the right glass. It is beyond a doubt that the glass choice is a critical factor that influences the experience. And in this choice, three main features emerge.

Appearance: Design and material should make the whiskey stand out so that you can "feel" it. A whiskey glass is also a design object and should look good in the hand, on the table, and even on display. The structure should be balanced and comfortable to grasp.

Drinkability: Base weight, diameter, and drinking angle are some major factors that make the difference in ergonomics! One should not be forced to toss down a whiskey whose value is measured in mere drops. Enjoy it gently and responsibly.

Smelling: For a slightly firmer experience focused on the scent, narrow rimmed glasses should be chosen. The purpose of this design is to intensify the rich flavor of whiskey so that your nose gets all the notes every time you take a sip. Wide rims may be preferred if you'd like a softer 'respirated' experience where the ethanol can easily evaporate.

SOUR CHERRY FOR SLEEP

Sour Cherry -one of the fruits we need to consume for better health- is especially rich in potassium, fiber, vitamin C, and melatonin.

Melatonin hormone is associated with the control of the sleep-wake cycle. You can either eat the fruit or consume it as compote or jam.

ANCIENT HEALING

Sage is one of the oldest medicinal herbs in human history. Its Latin name Salvia comes from the word 'salvere,' which means preserved or to heal. You don't need to add anything, and it does so much by itself. Sage feels so good for our body!

galata

A SWEET START TO THE DAY

With this coconut, banana, and chocolate smoothie, you can start your day deliciously and healthily. Before the commute, who doesn't need a boost for the mood and the body. And if you add some oats in, it will keep your engines running until lunch.

BLUE MAGIC

We love it when you prepare colorful and healthy treats in different forms of LAV glasses, and we love inspiring you to do that! This unusual flavor owes its beautiful colors to blueberry and blue spirulina. Both blueberry and spirulina -which is an alga- are potent antioxidants with anti-aging capabilities.

SUPERFOOD

Dried almonds contain the most iron and phosphorus among nuts. Although many of us already accepted them as nuts, they're actually seeds. It has quite a lot of calcium, potassium, vitamins E, and B. Almond is classified as a high-fat food. The monounsaturated fat they hold helps to protect the heart. It adds both flavor and good health to pudding, cookies, and cakes.

BREATHTAKING TRANSFORMATION

Inspired by the magnificent natural phenomenon of the caterpillar's transformation into a butterfly, the Ancient Greeks used the word "psyche" for the butterfly. The literal meaning of this word is "breath". Unlike the body, it expresses the breath of life, hence the soul.

MAGNESIUM MARBLES

The bright green and zesty little sibling of Lemon! Lime is a good source of magnesium and potassium. You can also try lime juice as an alternative to the warm apple cider vinegar or lemony water you drink in the morning to help digestion. And always an excellent decorative object for tables and kitchen counters.

VEGAN PANNA COTTA

Are you looking for a colorful and fun, and slightly "harmless" and light dessert to serve your guests at summer parties? Try making a vegan Pannacotta. We suggest using coconut or rice milk, but every plant-based milk of your choice can do the job. A footed tumbler is perfect for serving this soft sweet.

LET'S CELEBRATE!

Anniversaries, birthdays, mother's day, father's day, Christmas, holidays, each special day for you and your loved ones are perfect opportunities to be together and turn those moments into memories. The colorful tables you have prepared with your own efforts by liberating your creativity will increase these moments' value even more.

Tips for the perfect celebration table

For every special table, planning is crucial. Revisit your tableware inventory, set the table in your head according to your theme. Decide on your color palette and buy necessary flowers, napkins, etc., in advance. Set your table layer by layer; after the table cloth, runner, mats, place the flowers or greenery, then plates, and so on. This construction approach helps you to figure out inharmonious elements and fine-tune them.

DRINK IT COLD (AND FROM A GLASS)

Rise of the craft beers exposed us to the rich world of international beers. Boutique beer makers and microbrewers now produce the best originals and make them more accessible. So beer glasses earned their well-deserved appreciation from the gastronomy culture. Goblet, with its long and elegant, the chalice with its thick and heavy bottoms are excellent choices for high ABV (+8%) beers like German Doppelbocks and Eisbocks and Belgian Tripel and Quadruples.

SUPERPOWERS

Pay special attention to seasonal transitions! Our bodies respond to the seasons. While some are positive reactions, the likes of restless sleep and lack of energy are also common. Take plenty of vitamin C to protect your immune system and to keep your vitality high. All citrus fruits from tangerine to orange are at your disposal.

WANT MY TEA STRONG!

Samovar is one of the oldest tools used for brewing tea. It consists of a combustion chamber and a water chamber surrounding it and has a tap at the bottom. It's a Russian word, and it means "self-boiling". Samovar is intensively used, especially in Russia, Central Asia, and Near East.

WHY SLIM WAISTED GLASS?

In the Turkish style tea glass design, the thin waist is always preserved no matter how modern the new design is. The thinning in the middle section allows the lower part to fit in the palm, so the tea's warmth is felt pleasanter by the hand. The widening of the opening of the glass allows the tea to cool and be smelled.

Color of hospitality

Drinking tea in Turkey doesn't have a long history like coffee. The plantation started in the mid-20th century, and after that, Turkey gradually becomes the biggest tea consumer per capita. But it also has become the symbol of hospitality and unity in social life. Tea brewed from the early hours of the day to the later hours of the night is always essential.

Whenever you go, there is always someone waiting for you with a glass of tea and a warm smile.

HEALTH ELIXIR

During the Ottoman Empire period, puerpera sherbet served to the palace guests has turned into a traditional catering habit over the centuries and made with barberry, sugar, water, cinnamon, cloves, and various spices. On sizzling summer days when cold served, it has a remarkable chilling effect. It has soothing and regulating effects on the digestive system. And this beverage is drunk by postnatal women to increase the amount and the nutritional value of breast milk.

NEVER WITHOUT CINNAMON

Salep powder is one of the most unique and valuable Turkish cuisine treasures produced from an orchid tuber. In Turkish ice cream, sweetens and cools our tongues and, when boiled with milk and served with ground cinnamon, warms us with its fragrance in winter.

CHILDREN DRINKING MILK

You can make drinking milk fun with a straw to encourage your child to drink milk more. You can also make small additions like ice cream, cocoa, chocolate, macaron, or granola bar. But it is better to stay vigilant about the fat ratios of your child's milk and reactions. Goat milk is healthy, delicious, and more digestion-friendly. You can also try different types of plant-based of milk.

LEAVES OR THE ROOT?

Compared to the root, beet leaves contain many times more protein, phosphorus, and zinc, vitamin B6, magnesium, potassium, copper, and manganese, as well as plenty of antioxidants. Try adding beetroot leaves to your salads regularly.

CEREMONIOUS TABLES

Kashkak or Kashkek is an ancient Mesopotamia recipe, and it is still has a special place in Turkish and Greek cuisines. This is a dish made from wheat or barley and served with mutton or chicken over the top. And has a ceremonial purpose and collective feeling. It is consumed during religious festivals, weddings, or funerals. Kashkek was approved as Turkey's Intangible Cultural Heritage by UNESCO in 2011.

INNOCENT POTATO

Sweet potato is a root plant. It does not only keeps you full thanks to its complex carbohydrate and fiber structure, but it also allows the sugar to mix into the blood much more slowly due to its lower than standard potato glycemic index. You can fry, boil, bake them in the oven or roast them over a cinder. You can serve it as puree, garnish, and soup.

AS A SNACK

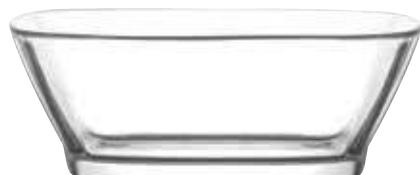

Japan's popular snack; the green soybeans, originally are served with a drink, especially at small street bars called izakaya. It is a healthy and great contender for a snack. So much so that you may be surprised to see that such wholesome food is also so delicious and easy to prepare.

Shining Tables

Small, large, wide, deep... Regardless of the size, glass bowls continue to play the leading role in the tables. There is room for a bowl in each meal, so every kitchen should have a selection of bowls available. What do we need other than a bowl full of cereal to start the day with the right food? Glass bowls elevate the temptation of a piping hot soup, the richness of treats, and seasonal fruits' colorfulness.

SUGAR-COATED CHICKPEAS

In addition to healthy snacks, you can also include candies and dragees in your treats. Almonds, walnuts, hazelnuts... And roasted chickpeas could be considered to be the most innocent of them. Roasted chickpeas are common in the Middle East. While sold mostly salted, sugary versions offer a surprising taste.

MASTER OF BALANCE

When we look at the 2021 color trends, the first thing that strikes our eyes is neutrals, which still dominate strongly. The revamped color palette shifts to warmer tones. Warmer whites, more soothing tones, and grays that balance them! Gray: The color that neutrality, harmony, modesty, and simplicity are most associated with. Gray is virtually a symbol for sustainability, a minimal and timeless combination of white and black. When used with vivid colors, it is one of the main actors of contrasting aesthetics with its calming effect like white.

WINTER PREPARATION

You can make sherbet, jam, syrup, sauce, and compote from ripe and soft forest fruits that you can find in abundance during Autumn. Thus you can enjoy them all for the following months. You can either add it to yogurt or porridge for breakfast; you can also make extraordinary sauces using them to serve besides sausages or steaks. You can also serve your desserts with forest fruits until the new season by freezing the fruits.

IDEAL ORDER

You can always keep your pantry tidy and spacious with containers with transparent lids and stackable glass jars. In this way, when you enter the kitchen, your only thought would what to cook with the tableware, not where to find them! With the wide selection of LAV jars and containers, you'll always have the right size for storing everything from pasta to pre-made salad, from snacks to left-overs.

PROTEIN BOMB

If you consume vegetables or salad, you could get hungry again just in 1-2 hours, so you should add protein and unsaturated fatty acids to your diet. Lentils are a good source of protein with a low glycemic index, and they keep you full. You can keep that delicious salad in LAV jars or containers and carry it with you.

AFTER SPORTS

Hazelnuts, providing the main valuable nutrients in hazelnut cream, are very rich in vitamin E as well as healthy fatty acids. Thanks to the powerful antioxidants in hazelnuts, you can spread the cream on a piece of bread and have lucid and younger-looking skin.

COLOR OR TASTE?

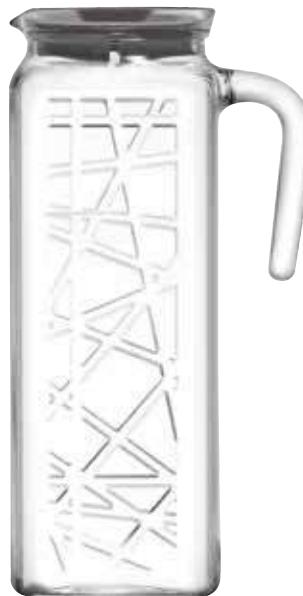

Purple basil has a unique color and intense aroma. It goes well with pasta and salad. Its sherbet has an incredibly refreshing taste and a balancing effect in summer. It has one of the most gorgeous shades of pink ever to meet the eyes. If you mix the sherbet with mineral water, the color will turn from pink to a flamboyant purple.

PURIFICATION TIME

Detox water is a very efficient, healthy, and practical mixture to cleanse your body from toxins. For a body balancing detox water: Put one sprig of rosemary, ½ sliced lemon, ½ cucumber, and ½ orange into the jug and add 1 liter of water. Leave it to rest for an hour; then, you can add ice and drink it.

Enchanting colors

Serve your signature beverage recipes from lemonades to detox juices, from punches to cocktails in LAV's glass jugs and carafes. Let your guests be enchanted with eye-catching colors as well as the taste. Pitchers also have a sentimental side; they give guests a sense of abundance and sharing, it makes them feel at home. Don't forget to use the fresh fruits you use as natural decorations for your settings.

For a wide range of life styles, from decoration styles to handicrafts, we draw our inspiration from Japan in this season. While the clothe painting technique Shibori, paper folding art Origami and the embroidery technique Sashiko shape the patterns where simplicity is the frontrunner, floral touches continue the serenity of the collection.

freehand patterns

From Piet Mondrian to Mark Rothko, from Matisse to Ettore Sottsass, we embark on an artistic journey where lines follow colors. This new collection, in which abstract and fluid silhouettes come alive with colorful blocks, enriches your whole life, and makes it fun through the kitchen.

BDG392
UB0457XZ

echoes of the ocean

From the shallow waters to deep seas, the calmest shades of blue bring the freshness of the water to the tables. As the ocean theme becomes a product, it manifests itself in fluid forms and reveals itself in the blue color palette. With seashells driven by the foaming waves, this collection encourages everyone to embrace a slower and more sensitive life.

FUTURE OF WATER

According to the World Wildlife Fund (WWF), although almost all of the world is covered with water, only 2,5% of the world's water is freshwater. And 70% of this water is frozen in ice and snow. The demand for freshwater resources increases each day, and approximately 700 million people suffer from water scarcity in 43 different countries.

PASTORAL BREEZE

Pastel colors suit the best to spring and country side parties. Pastels tones help you create colorful and lively tables. At parties dominated by blown out colors, decorate your table mostly with wild flowers. Prepare the cocktail recipes in accordance to the color harmony of the table.

FLAVORED AND SAVORY

Sommeliers are now being associated with another liquid besides wine: water! Although it may sound a little surprising, it is obvious that we do not value the smell and taste of water, the building block of life, and the liquid we consume the most, like other drinks. Isn't water's colloquial definition "tasteless, odorless liquid" a bit unfair? Water sommeliers are the professionals who approach the water with a focus on aroma and taste, researching and organizing tastings, and collecting samples from all over the world.

SWEET JOY

There is something about ice cream that gives people joy. Maybe we can further contribute to this joy with a few serving tips. Wet your spoon with room temperature water and insert it in the ice cream. Ice cream melts from out to the inside, it is much easier to spoon it up from the edges to the center. The ideal storage temperature is -8 degrees (17.6 F). The back of the freezer is the best place to store the ice cream.

about LAV...

Since its establishment in 1994, LAV has taken a leading role in the glassware industry thanks to its focus on market, customer, technology and innovation. Its facilities located in Kütahya, LAV is the world's fifth largest glassware manufacturer, supplying 2 million items every day with a large range of tumblers, stemware, bowls and etc. Today, LAV employs 2,000 people, with its sales and marketing office in Istanbul and two production plants built on a 300,000 square meter area in Kütahya. LAV exports its innovative and unique glassware products to 130 countries, including France, Spain

and USA in particular, as well as Brazil, the Philippines and China. It does this thanks to its globally extensive distribution and sales network, which reaches different landmark based countries around the world such as Zanzibar, Mauritius Islands, Victoria Falls, Tokyo, Sydney, etc.

LAV carries out its research and development activities on glassware production technologies at its Technopark facility, which is described as a "plant within a plant." Built in 2001, the innovation-focused Technopark is one of the three companies in the world which creates its own production technology.
