## All Purpose Bowls

Mason Cash have been manufacturing all-purpose bowls since the early 1800s and have pioneered the shape and sizes of all purpose bowls the world over. The bowls come in three sizes and have become a staple in kitchens as preparation and serving bowls.

Originally designed in the Victorian era the pudding must be sealed before steaming. The rim of the Mason Cash All Purpose Bowl is shaped for this purpose. The vented base of the all-purpose bowl allows bubbles to escape from underneath the basin, preventing it from tipping over in a pan. The classic shape of the bowl allows easy release of the pudding after steaming, giving an English pudding its distinct shape.

**MSRP: \$5.50 - \$7.00**

## Innovative Kitchen

Choosing the right materials for the right bakes is crucial. Mason Cash ovenware classics have been given the Innovative Kitchen treatment with pieces made from the highest quality stoneware and terracotta that will heat up gradually to give an even bake. New additions to the range include precision engineered lasagne, pie and quiche dishes as well as a bread form.

The terracotta proofing lid and bread form are essential for making the perfect breads. The unglazed terracotta bread form soaks in liquids, which draws moisture away from bread doughs and gives a crispier crust. While the shape and dimensions of the baking stone allows it to cover a mixing bowl to make it perfect for dough proving, giving it a 2-in-1 environmentally friendly function.

The stoneware ovenware pieces have been designed with unique embossments and shapes to ensure that professional finishes can be achieved by all bakers. Our vented bases and steep sides give perfect heat distribution and the embossed bases allow for easier releases on pie and quiche dishes.
