Inspiration and design for your table

The love of life, family, friends and good food has inspired COSTA NOVA to create fine stoneware collections that combine quality and design with the best in ceramic craftsmanship.

The brand produces innovative and sustainable stoneware, made from the best natural resources in Portugal.

We embrace “handmade” and preserve our European heritage in the manufacture of our stoneware collections, bringing to the table and to the home unique and elegant pieces that suit perfectly in today’s way of living and are able to last for generations.

COSTA NOVA was born in a small Portuguese fishing village, near the Atlantic Ocean.

Nowadays, carrying Portugal´s name and heritage all over the world COSTA NOVA is present across the five continents, in prestigious department stores and boutiques, hotels and renowned restaurants.

Celebrar a vida, através da partilha de momentos à mesa com a família e amigos, serve de inspiração à COSTA NOVA.

A marca cria coleções de mesa em grés fino, aliando qualidade e design à melhor tradição europeia de fabrico cerâmico. Os produtos em grés da COSTA NOVA são inovadores e sustentáveis, produzidos a partir dos melhores recursos naturais em Portugal.

Preservamos este trabalho artesanal no fabrico de cada uma das nossas coleções, levando para a mesa peças únicas e elegantes que se adaptam perfeitamente ao estilo de vida atual e perduram durante várias gerações.

A COSTA NOVA leva hoje o nome e a herança de Portugal a todo o mundo, com presença nos cinco continentes nas mais prestigiadas lojas de decoração e grandes armazéns e, também, em conceituados hotéis e restaurantes.

A SUSTAINABLE CHOICE

At COSTA NOVA we create unique and sustainable stoneware collections made from the best local clays. We pair them with thoughtful collections of flatware, glassware, table linens and other natural materials such as cork, wood and leather, manufactured in Europe with the best expertise and resources. Our choice of materials translates our commitment and aesthetics on bringing unique and elegant alternatives to the table and to the home, while respecting Nature.

Na COSTA NOVA criamos coleções únicas e sustentáveis em grés fino a partir das melhores matérias-primas locais. Combinamo-las com coleções selecionadas de cutelarias, copos, têxteis de mesa e outras matérias-primas naturais como a cortiça, a madeira e a pele, todas manufaturadas na Europa com os melhores recursos e know-how. A escolha destes materiais traduz o nosso conceito e compromisso em trazer para a mesa e para a casa propostas únicas e elegantes, enquanto respeitamos o Ambiente.

Fine stoneware

Using the best natural resources in Portugal, COSTA NOVA products are manufactured in a single-firing system heated up to 1180ºC (2160ºF) which creates a unique ceramic body with a special bonding between the clay and the glazed surface. An original formula that makes our stoneware more durable and resistant to both thermal and mechanical shocks.

Utilizando as melhores matérias-primas existentes em Portugal, os produtos COSTA NOVA são produzidos num sistema de monocozedura a elevada temperatura (1180ºC), criando um corpo cerâmico único com uma ligação especial entre a argila e a superfície vitrificada. Esta fórmula exclusiva dá origem a peças altamente resistentes aos choques térmicos e mecânicos.

carsten gollnick

For his first collaboration with COSTA NOVA, the renowned German designer Carsten Gollnick took inspiration from the aesthetic world of Portuguese Atlantic coast, and created a distinctive tableware collection in fine stoneware. The remarkable color contrasts and structures of the Portuguese Atlantic coast, especially the border between water and land, was his source of inspiration to develop a special collection where straight lines, pure shapes and flowing surfaces meet matte, rough and sandy structures. The light, sandy beige color of “dune path” engage in perfect dialogue with the very deep, shinning tone of “latitude black”, inspired by the Atlantic.

RODA

Torres Euracini

"Bring everyone together at the table... in a circle of friends, we awaken the delight of meeting flavors, experiences and stories of companionship made of emotions and shared memories. Time well spent with moments of pure happiness and culinary delights… the next dish follows; the next story follows."

It was this simple, yet significant vision that inspired Torres Euracini to create RODA, a modern and elegant tableware collection with the perfect balance between simple, organic lines and surprising finishes. All pieces were carefully designed to exceed expectations in terms of versatility and use, either in the most casual way or in a special gathering with our "Circle of Friends".

BRISA

The warm breeze that blows from the east and cascades along the Algarve coast with fruity aromas and the fresh flavors of Ria Formosa was the inspiration for this collection. The blended white and blue glazes and organic shapes transport us to the intricate landscape of lagoons, canals, salt works, and sandy beaches stretching across deserted islands. This collection adds light to every gathering and turns any table into a memorable experience.

NOVA

Inspired by Nature's organic shapes of the natural world and the cycle of life, Nova seeks to capture movement in fine stoneware. The pieces are inspired by seashells and tree bark and like these objects found in nature, they possess the ability to change their appearance depending on the time of day and the angle of the light.

PEARL

The Pearl collection was inspired by the richness of 18th and 19th century European ceramics. The round shapes, beautifully embossed with a beaded edge were reinvented to create a new classic concept, bringing a touch of European traditional elegance to the table that will never go out of style.

USE & CARE

FINE STONEWARE

Not all stoneware is created equally. In fact, there is not a standard, universal definition of stoneware and the word is frequently misused to describe other ceramic products.
At our factories in Portugal, the ancient skills of modeling and decorating are combined with modern technology in a special process that produces high-quality fine stoneware products capable of withstanding everyday use over many years. Manufactured in a single firing system heated up to 1180 ºC (2160 ºF) our stoneware is very strong and durable. Its glazed surface is fully vitrified which gives it high resistance to both thermal and mechanical shocks.

OVEN, FREEZER AND MICROWAVE SAFE
All pieces manufactured in fine stoneware have high thermal shock resistance, withstanding temperature variations between -20 ºC and 250 ºC (0 ºF to 500 ºF). The maximum thermal variation advised is 180 ºC (350 ºF). All stoneware products can be safely used in the oven, microwave, and freezer. As a precaution, you should avoid placing pieces straight from the oven on a cold surface. Do not use it over a direct flame. Avoid the use of products with craquelée surfaces such as Cristal (grey), Elements (Algarve and Lomo), Lisboa, Madeira, and Riviera in the oven and freezer.

DISHWASHER SAFE
All our pieces are easy to wash and clean and abrasive cleaners can be used without the risk of damaging the surface due to their high durability and low porosity. Most items can be washed daily in the dishwasher. To ensure the items last longer we advise you to make sure that no item rubs or bumps against another during the wash cycle, preventing damage. As a precaution, we recommend you wash oversized items and more delicate pieces by hand.

18-Karat gold-rimmed (Augusta) and PVD gold-coated (Riviera) stoneware items:
Not oven, microwave and freezer safe.
Hand wash recommended.

FOOD SAFE
All COSTA NOVA products meet the standards established by International Standards including the US Food and Drug Administration (FDA) concerning to lead and cadmium. They are food safe.

CRAFTSMANSHIP
All COSTA NOVA fine stoneware products are hand-finished which provides them unique character. Any irregularities, color variations, or small imperfections should be considered defects, but unique marks of authenticity.

ACCESSORIES

Flatware
Made from high-quality stainless steel (18/10), all COSTA NOVA flatware collections are crafted for exceptional durability and sustainable for everyday use. To maintain the original qualities we advise some extra care:
- Remove all the residues after each use, in order to avoid prolonged contact with cutlery pieces;
- For manual washing use hot water, a neutral detergent, and a soft cloth/ sponge;
- Do not use abrasive or mechanical aggressive agents;
- Cutlery should be placed in the dishwasher's basket or tray; knives separate from other cutlery;
- After each dishwasher cycle, it is highly recommended that cutlery must be removed from the basket and well dried with a soft cloth;
- There should be special care with the knives and the blade of hollow handle knives, due to their extra sharpness. As they are more susceptible to oxidization, they should be carefully dried after each wash.
- In order to recuperate the original shine and remove lasting stains from a lesser quality washing, a soft cloth with drops of lemon juice can be used;
- Special materials and/or special finishings, as Fibber/Resin or PVD must be washed only in dishwasher, following the instructions upon described and also temperature not higher than 60ºC / 140ºF and detergent with less than 10% of phosphates.
- Do not keep COSTA NOVA flatware in humid places;
- You can rehydrate the resin handles with some rich moisture cream.

Steak/cheese knives
Dishwashing is not recommended on knives with a wood handle. Wash after each use with a non-abrasive sponge. Dry with a soft towel to avoid corrosion and spots.

Glassware
Our glassware collections are either made of pressed-glass, our mouth-blown glass using semi-manual methods. Wine glasses, water glasses and tumblers can be safely used in the dishwasher. However, hand washing will prolong the life of the products. To maintain the original qualities we advise some extra care:
- Before placing glasses in the dishwasher it is advisable to rinse them in lukewarm water to eliminate any residues;
- Washing glassware by hand: handwash glasses individually with a non-abrasive detergent, warm water, and a soft sponge or cloth;
- In the dishwasher: place glasses in the appropriate rack to avoid scratches. The washing temperature for the dishwasher should be 65 ºC (140 ºF) with a rinsing phase at 65 ºC (149 ºF) and a washing cycle of approximately 90/120 seconds. Carefully dose the brightener, an excess amount may cause iridescence on the glass surface, and a poor amount leaves water drop marks on the bowl. At the end of the washing program, open the door and leave it ajar for 5-10 minutes to vent steam and avoid the formation of halos on the glass due to condensation;
- Dry with a microfiber cloth;
- We recommend you wash oversized items and more delicate pieces by hand, namely our bourdeaux/burgundy/chardonay glasses, our decanters, glass domes, and all items from our recycled glass collection Tosca.

Table Linens
Made in Portugal from the best natural fibers, all our table linens collections are easy to use and maintain. They can be machine washed up an iron up according to the specifications of each fabric.

Cork & cork/recycled EVA
Our cork accessories are made 100% cork (Nótos and Redonda collections) or 20% cork/80% recycled EVA (Plano collection).
Recycled EVA is a subproduct that comes from the waste of soles production and is reused for other purposes - recycled and eco-friendly.
For daily cleaning we recommend using a soft, dry cloth to remove impurities; when necessary you may use a moistened cloth. Do not soak. Store protected from sunlight, moisture, and heat sources. Avoid strong alkalis (it dissolves cork). Although food contact is safe, please avoid smoke odor and taste transfer. Do not place food directly.
Made in Portugal.

Leather
Handcrafted in Portugal, our leather accessories are vegetable-tanned, one of the oldest and environmentally-friendly methods of leather tanning. This process results in leather with unique features: handcrafted to age beautifully and made to last a lifetime.
Wipe clean with a damp cloth. For maintenance, occasionally rub appropriate oil.

Club placemats
Club placemats are made of phthalate-free vinyl. Wipe them with a damp cloth. When necessary you may use a mild soap. Do not put them in the dishwasher or immerse in water.

Wooden accessories
Our wooden accessories are handcrafted in Portugal from premium quality woods. Natural variations in the wood's tone and grain make each piece unique. Handwashing is highly recommended. Wipe the wood pieces with a damp cloth. Do not soak. You can use mild dish detergent when necessary. To maintain the original qualities of all pieces, occasionally rub them with food-safe mineral oil. Use the boards and boxes for dry food only. Each item will need re-treating over time with a food safe wood wax or oil to keep them looking their best. It is best to avoid using olive oil as it can go rancid. Walnut oil, flax seed, cocounut oil and linseed oil are all good to use and are readily available. Never put wooden accessories in the dishwasher or leave soaking in water. If prolonged contact with water occurs the edges may go a little fuzzy when it is dry. Using the fine grit sandpaper lightly sand down until smooth and keep well moisturised with a wood oil or wax.

Other accessories
Our metallic accessories are made in Portugal in painted metal. When necessary we reccomend to clean them with a moistened cloth.
Lagoa and Roda's tea pot infusers are made of 18/10 stainless steel. The fine mesh shape creates the ideal leaf free infusion.
This is a dishwasher safe item. However, hand washing is recommended. Rinse filter immediately after use to remove tea leaves, then wash as soon as possible after use. Do not use hard or improper cleaning agents. Dry immediately after washing and store in a dry environment.
Lagoa's tea pot handle are made of 18/10 stainless steel with a black finish.

CUIDADOS DE UTILIZAÇÃO

GRÉS FINO

Nem todo o grés é produzido segundo a mesma filosofia. Na realidade, não existe uma definição clara e universal que caracterize o grés pelo que a designação é habitualmente utilizada de forma inadequada para descrever outro tipo de produtos cerâmicos. Todos os nossos produtos são fabricados em grés fino a partir dos melhores recursos naturais existentes em Portugal num sistema de monocozedura a alta temperatura (1180 ºC). Esta fórmula original cria uma superfície vitrificada resistente aos choques térmicos e mecânicos, ao fendilhamento e ao uso diário.

FORNO, CONGELADOR E MICRO-ONDAS
Todas as peças produzidas em grés fino possuem elevada resistência ao choque térmico, suportando variações de temperatura entre os – 20 ºC e os 250 ºC (a variação térmica máxima aconselhada é de 180 ºC). Podem ser usadas no forno, micro-ondas e congelador. Por precaução, não aconselhamos colocar peças retiradas do forno em contacto direto com uma superfície fria. Não colocar as peças diretamente sobre uma chama ou chapa. Evitar o uso de peças com superfície craqueleé como as das coleções Elements (Algarve e Lomo), Lisboa, Madeira e Riviera no forno e congelador.

LAVAGEM
Todas as nossas peças são fáceis de lavar e de limpar, podendo usar-se produtos de limpeza mais abrasivos sem o risco de danificar a superfície devido à sua elevada durabilidade e baixa porosidade. A maioria das peças podem ser usadas diariamente na máquina de lavar loiça, tendo o cuidado de se certificar de que nenhuma peça está em contacto com outra durante o ciclo de lavagem, evitando danos. Por precaução, aconselhamos a lavagem manual das peças maiores e mais delicadas.

Artigos em grés com rebordos pintados em ouro 18-quilates (Augusta) e revestidos a PVD dourado (Riviera):
Não devem ser utilizadas no forno, micro-ondas e congelador.
Recomenda-se lavagem manual.

SEGURANÇA ALIMENTAR
Todos os produtos Costa Nova estão em conformidade com as normas internacionais que regulam os artigos que entram em contacto com os alimentos. Não contêm cádmio nem chumbo.

AUTENTICIDADE – TRABALHO ARTESANAL
Todos os nossos produtos são acabados à mão o que lhes confere um carácter único e autêntico. Pequenos aspetos irregulares ou imperfeições e ligeiras variações de cor que poderá encontrar não são considerados defeitos, mas sinónimo da sua autenticidade.

ACESSÓRIOS

Cutelarias
Produzidos em aço inoxidável de alta qualidade (18/10), os faqueiros COSTA NOVA são desenhados de forma a garantir a sua durabilidade e uso diário nas mais diversas circunstâncias. Com alguns cuidados manterão o seu estado original por mais tempo:

- Após cada utilização deve remover os resíduos de alimentos de modo a evitar o contacto prolongado com os talheres;
- Na lavagem manual utilize água quente, um detergente neutro e uma esponja macia ou pano macio;
- Na lavagem à máquina deve evitar detergentes abrasivos;
- Os talheres devem ser colocados no cesto da máquina com o cabo voltado para baixo, separando as facas dos restantes talheres;
- Os talheres COSTA NOVA não devem ser lavados em contacto com outros objetos metálicos;
- Deve ter um cuidado especial com as lâminas das facas que, devido ao seu elevado poder de corte, são mais sensíveis à oxidação, pelo que devem ser secas após cada lavagem;
- Após cada lavagem é altamente recomendado que os talheres sejam retirados e imediatamente secos com um pano suave;
- Para recuperar o brilho original e remover manchas decorrentes de uma lavagem deficiente, pode utilizar um pano macio com umas gotas de sumo de limão;
- Não guarde os talheres COSTA NOVA em locais húmidos;
- A cutelaria COSTA NOVA com materiais ou acabamentos especiais, nomeadamente Fibra/Resina ou PVD, deve ser unicamente lavada em máquina de lavar, seguindo as condições acima descritas acrescidas de temperaturas não superiores a 60 ºC e a utilização de detergentes com teor igual ou inferior a 10% de fosfatos;
- As peças com acabamentos em cobre, devido à presença de cobre na composição do banho, devem ser imediatamente secas após a lavagem e nunca devem ser deixadas dentro da máquina de lavar;
- As peças com cabo em fibra/resina, no sentido de reavivar a sua cor natural, podem ser hidratadas no cabo, com um creme gordo.

Facas de bife/queijo
A lavagem na máquina de lavar loiça não é recomendada em facas com cabo de madeira. Lave as suas facas após cada utilização com uma esponja não abrasiva. Seque com uma toalha macia para evitar corrosão e manchas.

Artigos em Vidro
As nossas coleções de copos apresentam uma variedade de métodos semi-manuais, desde vidro prensado a vidro soprado. Todos os copos de vinho, copos de água e tumblers são próprios para máquina de lavar a loiça. No entanto, a lavagem manual irá prolongar a longevidade dos artigos.
- Lavagem manual: use um detergente não abrasivo, água morna e uma esponja macia ou pano macio;
- Na máquina de lavar a loiça: lave separadamente de outros artigos cerâmicos e cutelarias. Certifique-se de programar a máquina para uma lavagem a baixa temperatura e utilize uma grelha adequada para a lavagem dos copos;
- Secagem: após a lavagem, deixe os copos secarem numa posição vertical; uma vez secos, use um pano próprio para vidros de forma a remover as marcas de água.
- Aconselhamos a lavagem manual das peças de vidro maiores e mais delicadas, nomeadamente os nosssos copos bordeaux/burgundy/chardonay, os nossos decanters, as nossas campânulas de vidro e todos os artigos da nossa coleção de vidro reciclado Tosca.

Têxteis de mesa
Fabricados em Portugal com as melhores fibras naturais, todos os nossos têxteis de mesa e avental são fáceis de usar e cuidar. Todos os artigos podem ser lavados e engomados de acordo com as especificações de cada tecido.

Artigos em cortiça
Os nossos acessórios de cortiça são feitos em 100% cortiça (coleção Nótos) ou de 20% cortiça/80% EVA reciclado (coleção Plano).
O EVA reciclado é um subproduto proveniente dos resíduos da produção de solas solados e que é reutilizado para outras finalidades - reciclado e sustentável.
Para a limpeza diária destes artigos recomendamos a utilização de um pano macio e seco para remover as impurezas; quando necessário, pode utilizar um pano humedecido. Não os submersa em água. Armazene-os protegidos da luz solar, humidade e fontes de calor. Evite álcalis fortes (dissolvem a cortiça). Embora o contato com alimentos seja seguro, evite colocar alimentos diretamente sobre estas superfícies.
Fabricado em Portugal.

Artigos em Cabedal
Manufaturados em Portugal, os nossos acessórios em pele com curtimento vegetal, um dos métodos de curtimento mais antigos e ecológicos. Este processo artesanal é o único capaz de dar características únicas e uma enorme longevidade a cada peça: o seu aspeto altera-se e melhora ao longo dos anos.
Limpe as suas peças em pele com um pano húmido. Para manutenção, esfregue-as ocasionalmente com um óleo apropriado.

Individuais de mesa Club
Os individuais da coleção Club são feitos em vinil. Para limpeza diária, recomendamos o uso de um pano húmido. Se necessário, pode usar um detergente suave. Não colocar na máquina de lavar loiça nem mergulhar em água.

Acessórios em Madeira
Os nossos acessórios de madeira são feitos à mão em Portugal a partir de madeiras de elevada qualidade premium. As variações naturais encontradas na cor e no grão da madeira tornam cada peça única.
A lavagem manual deste artigos é altamente recomendada. Limpe-os com um pano húmido. Não os submersa em água. Pode utilizar um detergente suave quando necessário. Para manter as qualidades originais de todas as peças, esfregue-as ocasionalmente com óleo mineral seguro para alimentos. Utilize as tábuas e as caixas de madeira apenas para alimentos secos.

Outros acessórios
Os nossos acessórios metálicos são fabricados em Portugal em metal pintado. Quando necessário, pode limpá-los com um pano humedecido.
Os infusores de chá das coleções Lagoa e Roda são produzido em aço inoxidável 18/10. A sua malha fina cria uma infusão sem passagem de folhas. Este é um artigo válido para a máquina de lavar louça. No entanto, recomendamos a sua lavagem à mão. Enxague o filtro imediatamente após a utilização para remover as folhas de chá e lave-o em seguida com um detergente suave. Seque o infusor imediatamente após a lavagem e guarde-o num ambiente seco.
A pega metálica do bule da coleção Lagoa é produzido em aço inoxidável 18/10, com um acabamento preto.
