Here's to the table.

Let's keep it breezy and relaxed.

Impromptu. Unfussy.

Let's not overthink or overplan.

Let's simply gather around the table,
raise glasses to non-occasions, pass platters
around and all talk at the same time.

Let's not leave until every last bit is devoured.

Let's bring out one more bottle of wine.

Let's say We'll do this again soon – and mean it.

Let's reconvene.

Reconnect.

And rediscover the joy of bringing people together.

Let's make your table a place that says
Come in, sit here – yes, yes, there's room.
Because that's what brings people over.
And continues to beckon them back.

YES — LET'S

These are our
brand pillars.

What we're all about, in case you were wondering.

OPEN ARMED

Place settings create community. They say “There’s a spot for you right here.” We invite you to set tables where all are welcome. And a portion of your purchase benefits families in need, stocking pantries and furnishing kitchens, as they gather at tables of their own.

FREESTYLE FRIENDLY

Made with maximum color mix-and-matchability, so you can freestyle without all the fuss. Forget the rules – who needs ‘em. March to the beat of your inner entertainer. And make spontaneous your signature style.

YOU-CENTRIC

You’re the reason we do what we do, with easy-care collections that don’t need special attention. And we want Dish Delivery Day to be happy, so we pad everything well for an uneventful journey. Your packages arrive safe, sound and soufflé or stir-fry ready.

TOP-NOTCHERS

These are the real deal, standouts in the quality craftsmanship department. Created to be your go-to’s. Your tabletop crew, ready for anything. Big things that call for cake. Or non-things like late-night noshing on pistachios. Made for today and decades of tomorrows, they hold up to everyday everything, and look really good doing it.

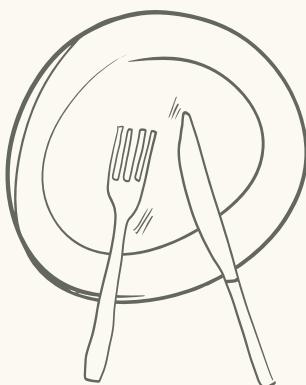

Dinnerware & Serveware

DINNERWARE & SERVEWARE

Nearly 100 steps are involved in crafting our stoneware and porcelain dinnerware & serveware, dispelling any notion of mass-produced items. The human touch remains integral to the process, and while we hesitate to label them as solely "hand-made" or "hand-finished," we strive to convey that human craftsmanship plays a substantial role in every aspect of our production.

O&B

LINENS, PLACEMATS & TABLE RUNNERS

Our 100% linen, meticulously dyed in-house, exudes an exceptional quality. The generous hems lend an exquisite heft and graceful drape to every piece. Mitered corners, thoughtfully designed, maintain their shape even after numerous washes.

This linen's versatility makes it an ideal choice for layering with vibrant prints.

ARTISTRY IN HAND-BLOCKED PRINTS

Crafted in Jaipur, India, employing time-honored techniques of hand-carved blocks. Each color necessitates a distinct block, meticulously layered by skilled artisans to forge the intricate design. Each creation possesses its own distinct character, an embodiment of true handcrafted artistry.

GLASSWARE

MOUTH-BLOWN GLASS

We kick things off with molten glass right out of the kiln, and our skilled glassblowers quickly shape it using a water-soaked wooden mold and a long steel pipe. They gently blow air through the pipe to get that perfect bowl shape. Our teamwork shines here – one artisan makes the bowl, another adds the stem, and a third puts on the delicate foot. It's a smooth operation, resulting in our awesome glassware in both clear & colored glass.

Decorative Accessories

DECORATIVE ACCESSORIES

Candlesticks, vases, and napkin rings are the stylish accessories that jazz up your table setting, injecting a pop of modern flair and a dash of playful personality into the dining experience.

Accessories are what makes or marks a table – okay, so Coco Chanel didn't exactly say this.

Designed to layer in with any home decor style.
