WILLIAM YEOWARD CRYSTAL

AMERICAN BAR – COUNTRY – STUDIO

WILLIAM YEOWARD CRYSTAL

William Yeoward Crystal came into existence in 1995, the result of a remarkable collaboration between Timothy Jenkins and William Yeoward.

Timothy Jenkins, third generation in the family-owned crystal business John Jenkins, founded in 1901, had an intimate knowledge of the European crystal industry and for some years had been making reproductions of antique pieces. William Yeoward, already a noted designer working in the field of furniture, lighting, fabrics and interior accessories for the home with a store on London's Kings Road, was an avid collector of antique crystal. But he felt that there was little contemporary crystal that was truly beautiful.

A chance meeting in 1993 brought the two together and they quickly found that they shared a passion for the beautiful crystal of the 18th and 19th Centuries and both wished these wonderful pieces could once again be created and preserved for posterity. They decided to work together to create a new collection of Crystal that combined some of the best elements

of the Georgian period with modern technology in crystal making. They wanted to create completely new hand-made pieces that were beautiful in themselves but practical and useful for today's interiors. A key decision was to incorporate wherever possible some of the styles of cutting and hand engraving that make antique crystal so appealing, while at the same time creating functional and contemporary pieces.

Today, the William Yeoward Crystal Brand incorporates William Yeoward Crystal, Country, American Bar and Studio. Each Collection has its own style, feel and use for the home but always maintaining the style that has been the signature of William Yeoward Crystal from the beginning.

William Yeoward Crystal can be found prominently displayed in the finest retail stores across the world and has been widely embraced for its distinctive designs and unique style.

In May 2024 William Yeoward Crystal was honoured to be granted a Royal Warrant of Appointment from HM The King as Supplier of Crystal Glass.

WILLIAM YEOWARD AMERICAN BAR

This collection of contemporary hand made drinking glasses for The Bar evokes the style and glamour of the 1920s and 1930s when the new experience of Cocktails and Jazz was all the rage.

With America in Prohibition, the fashionable places

to see and be seen were the American Bars that proliferated across the Grand Hotels of Europe.

The present day sees a new passion for Cocktails and Mixology; these drinks take time and skill to create. The perfect cocktail deserves the perfect glass!

WILLIAM YEOWARD COUNTRY

William Yeoward COUNTRY is a collection of beautifully designed handmade glass – pieces that have been designed to bring greater enjoyment to our day-to-day lives. The collection is based on simplicity and integrity in form and function - completely handmade, honest craftsmanship, the pieces and shapes we actually need.

COUNTRY is a stylish and practical alternative for use at breakfast, lunch on the terrace or dinner around the kitchen table. The SHAPES are simple and functional but have all been created with great attention to detail so that they are not just useful but are also beautiful in themselves. There is a pleasing harmony in the flowing lines of the different pieces; the serving pieces are comfortable to hold and the drinking glasses have antique style handmade rims - more durable and so much better looking!

COUNTRY creates an atmosphere of comfort and relaxation, of sunshine and flowers, good food, good wine and good company; the generously proportioned serving pieces, decanters and glasses speak of great hospitality, unhurried enjoyment and enduring memories. William Yeoward COUNTRY – perfect for every day.

WILLIAM YEOWARD STUDIO

William Yeoward Crystal's major introduction for 2018 was a new collection 'STUDIO', a colourful and contemporary collection of Table Glass, Bar Glass and decorative pieces for the home.

The inspiration for this new collection came from Europe's Mediterranean region and in particular from Italy and Greece.

The Mediterranean has long attracted artists who were drawn to this area by its bright light and dazzling colours- and in more recent times countless travellers from more northern regions have come in winter and summer to enjoy its mild climate, its exotic vegetation and its warm seas.

We wanted to make a collection that reflected some of the beauty of the Mediterranean, with tableware and decorative pieces for the home that could be used all year round and which would act as reminders of extraordinary places that we have visited and enjoyed.

Bella Bianca and Bella Blue, with their spiral trails of White and Blue, remind us of sparkling oceans, the white clouds of summer, skies in every shade of blue- and white sails over the water.

Vanessa, with its rich colours of Tortoise, Forest Green and Sicilian Blue captures some of the elements that make the Mediterranean coastline so memorably beautiful.

The statement pieces in Miranda bring to mind our magnificent oceans, the Seaglass Green reminiscent of treasured pieces found on the seashore, the Ocean Blue the colour of our deepest seas.

The decorative pieces Ariadne and Circe were inspired by the timeless beauty of ceramics from ancient Crete- a land still beautiful with green forests, dazzling white houses and luminous light.

These new pieces have been designed to showcase the skill and artistry of the individual glassmaker, every piece being hand made by a true artisan; no two pieces are exactly alike, each one is an individual piece of highly skilled craftsmanship.

As beautiful as these pieces are, they are all designed for everyday use, the Bar and Table Glasses are all made in practical shapes and sizes- but the use of colour in spirals and swirls adds a new dimension to how each shape is perceived.

When used in table settings, glasses like Bella and Siena add a sense of movement and colour to the glamour of the occasion- the Bar Glasses Vanessa with their vibrant jewel colours are dramatic and original.

All the colours are cleverly coordinated, to give the host the freedom to create beautiful contemporary table settings.

There are many different Bowls and Vases in the collection, some useful pieces for the table, others, such as Ariadne and Circe, fine statement pieces to decorate a stylish home.

We hope you too will enjoy these colourful pieces and what inspired us to create them.

WILLIAM YEOWARD STUDIO
